PROJECT PROFILE:

Project: EV Charger Web App.

IT Skills: HTML5, CSS3, JavaScript, NodeJS, React.

Description: I was working on the Electrical Vehicle Charger Web App. Where we were handling the reservation of charge station for the specific user for the certain period of time, Maintaining the history of the Payments for that user and also showing the amount for that specific charge after charging with their vehicles. For admin we display all the transaction details but for user we show only specific details.

ROLES AND RESPONSIBILITIES IN THE PROJECT:

- Used **React** to create a **Single Page Application (SPA)** which can bind data to specific views.
- Designed and developed the application using **React** along with **HTML5, CSS3, Java Script, NPM.**
- Extensively Worked on **CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, Pseudo Elements & Classes, and CSS Behaviors.**

SELF-MADE PROJECTS:

Title : **The Amazon Clone**
Description : The Amazon Clone build with HTML5, CSS3, React and Hooks. The functionalities are Authentication, Payments, Cloud Firestore by using Firebase.
